

Iwate University (in Iwate Prefecture)

We provide intellectual discoveries integrating knowledge, experience, and analysis.

■ Profile of Iwate University

① Profile of Iwate University

Located in the prefectural capital Morioka, Iwate University is known for being the alma mater of the famous author and poet, Kenji Miyazawa. The university's main missions are: Disaster Recovery-Vitalization of Local Areas, Development of Global Human Resources, and Fostering Innovation. To this effect, Iwate University has become known as a leader for recovery of areas affected by the Great East Japan Earthquake in 2011. Thus, it is a “locally-oriented university,” contributing to a sustainable local community.

Iwate University was founded in 1949 with the Faculties of Liberal Arts, Engineering, and Agriculture, and continues to grow to this day. As of April 2016 our four undergraduate faculties have been reorganized into Humanities and Social Sciences, Education, Science and Engineering, and Agriculture, with a master's program in each Faculty. These programs were integrated into the Graduate School of Arts and Sciences in April 2017, offering divisions in Interdisciplinary Cultural Studies, Regional Development and Creativity, Science and Engineering, and Agriculture. The university also offers a doctoral program in the Faculty of Engineering and the United Graduate School of Agricultural Sciences.

In addition, we have many interdisciplinary departments and affiliated institutions to support our academic activities, such as the Center for Teaching, Learning, and Career Development (Global Education Center); Super-Computing and Information Sciences Center; and Health Administration Center.

There are approximately 5,500 students enrolled at Iwate University, with 480 teaching faculty members and 270 administrative staff to support them. Located in the center of Morioka, all four faculties are on the same campus and are only a few minutes' walk from each other.

Iwate University is proud of its collection of nearly 500,000 valuable materials and relics provided by the hard work of past and present faculty members and students.

Access to the university's resources are not limited to students and staff; we have initiated the “Iwate University Museum” concept, enabling the entire university to become a virtual museum, granting the public access to facilities and cultural treasures such as the University Botanical Garden, Nature Center, Center for Veterinary Study, and the Historical Museum for Agricultural Education, which is designated as an Important Cultural Property.

② International Exchange Agreements

As of May 1, 2017 Iwate University has exchange agreements with 54 institutions abroad in 16 countries and 1 region.

④ About Iwate

With a population of 300,000, Morioka City is the largest community in Iwate Prefecture, and serves as the cultural and economic center of the region. Morioka has an abundance of nature, and is known for its charm, history, and culinary delights.

There are many people from Iwate who have played important roles in the areas of scholarship, culture, and politics. Among them include Kenji Miyazawa, the poet Takuboku Ishikawa, and author and international administrator Inazo Nitobe. In addition, Iwate is home to four former Prime Ministers.

Hiraizumi, located in southern Iwate, was the center of prosperity of the Fujiwara clan in historical times. Hiraizumi was registered as a UNESCO World Heritage site in June 2011, followed by the Hashino Iron Mining and Smelting Site in Kamaishi in July 2015. Tohno, well-known for its folkloric culture, is located in the center of Iwate Prefecture and home to the famous folklorist, Kunio Yanagida who wrote the classic, Tales of Tohno.

In March 2011, many of Iwate's coastal areas were devastated by the Great East Japan Earthquake. Morioka, as well as numerous other communities in Iwate, have continued to provide support for the disaster-affected areas.

Iwate has a rich culture and history, yet has also experienced a great natural disaster. Studying at Iwate University is most suitable for those wanting to understand Japanese culture, and how nature and humans impact each other. We at Iwate University always look forward to inviting talented minds

from around the world to enjoy life and learning on our campus.

■ Program Outline

① Purpose

This program offers international students the opportunity to learn about Japanese culture and society with supplemental language courses to improve their Japanese-language skills.

② Profile

The program focuses on Japanese language and society as a whole: culture, history, geography, politics, economics, society, and education.

In order to enhance international students' understanding of Japan, they engage in hands-on experiences outside the classroom, such as kimono workshops, tea ceremonies, and Japanese calligraphy, among others. There are also classes on Japanese history and culture taught in English, where international students can learn with other Japanese students.

In addition, international students are required to write an academic report focusing on a topic of their selection related to Japanese culture.

③ Maximum Enrollment: 5

(Recommended by a Japanese Embassy: 2)

(Recommended by Iwate University: 3)

④ Qualification for Enrollment

To apply for this program, international students must meet the following requirements:

- 1) An intermediate or advanced level of Japanese proficiency (JLPT N3 or equivalent), and the ability to carry on daily conversation and read simple passages in Japanese.
- 2) A major in Japanese language, Japanese culture, or a Japan-related field at their home institution.

⑤ Goals and Objectives

- 1) Students will acquire academic writing and presentation skills in Japanese.
- 2) Students will acquire a wide-range of knowledge based on their experiences in Iwate and Japan, and the skills to understand and expand on these experiences.

⑥ Program Period:

October, 2018 – August, 2019

⑦ Outline of Courses

The course of study has three main components: Japanese language and culture classes, classes in international students' areas of study to be taken with Japanese undergraduates, and independent studies.

International students are assigned an adviser who will help them decide the number of classes to take. They can register for courses (based on availability) which have been specially designed for international students, as well as general education courses and specialized subjects. Thus, international students are able to focus on their specific area of interest.

Those taking Independent Studies are required to research a topic related to Japanese language and culture, and report their findings in an academic report.

Courses encompassing the study of the Japanese language and society are listed on this page. (One class lasts 90 minutes).

International students in the Japanese Language & Culture Studies Program (JLC) are able to take interdisciplinary courses and supplementary courses.
